COURSERA | 2023 - PRESENT

EXPERIENCE

REACT NATIVE & IOS CONSULTANT

AXITY | 2024 - PRESENT

Optimized the Chedraui mobile application using React Native, TypeScript, and RESTful APIs.

The transition from React Native to Swift modules was successfully implemented in the Chedraui app, improving the user experience and facilitating future maintenance.

FRONT END DEVELOPER

MAANYUBA / MULTIPLICA | 2023 - 2024

An advanced mobile application designed for seamless money transfers, convenient service payments, and real-time monitoring of your business account balance.

Developing a super app for FEMSA, specifically on the front-end, using the SCRUM methodology involves building a feature-rich and user-friendly application that caters to the needs of FEMSA's customers.

FULL STACK DEVELOPER

TECNOCONTROL VEHICULAR | 2020 - 2023

Development of a home delivery application that leverages the GPS, camera and address service capabilities of Google Maps.

Implemented a mobile view that allowed users to check in real-time the location of a vehicle.
